

## Consent Form for Thyroid Data Collection

I consent that the PWDCA Thyroid Committee may anonymously share the clinical and laboratory data that I provide with the membership in Courier articles and in regular reports to the PWDCA board. Inherent in this understanding is that if the committee chairperson changes for any reason, the incoming chair (and a board designee) will receive these consents and the thyroid database. This is necessary to avoid loss of data.

I understand that anonymous means that neither my dog's name, the breeder, nor myself will be identified in reports nor will individual information be available to anyone through the committee.

I agree to consider placing this information about my PWD's hypothyroidism into the HLD upon completion of its ongoing revision, with the understanding that HLD information is an open health registry for purebred Portuguese Water Dogs. At that point in time, if the dog is co-owned, I understand that I need to obtain all co-owners' consent for the data to be placed into the HLD.

Dog's Registered Name \_\_\_\_\_

Dog's Registration Number \_\_\_\_\_

Date of Birth \_\_\_\_\_

Owner \_\_\_\_\_

Co-Owner/s \_\_\_\_\_

Note: This form may be filled in and returned to the committee chair - -
